## The NCA Water Test

The NCA Water Tests are a series of exercises designed to develop and demonstrate the abilities of the purebred Newfoundland Dogs in an aquatic environment. The Newfoundland has historically functioned as a working companion to its owner, and members of the breed have participated in many heroic rescues. Performance of these exercises is intended as a demonstration of skills developed through both natural ability and training rather than a competition between dogs or handlers. The emphasis in the Water Tests is on teamwork between dog and handler in realistic work and rescue situations. Efficiency in accomplishment of tasks is essential; however, it is also desirable that the dog evidence willingness and enjoyment of his work in a combination of controlled teamwork with his handler and natural independence.

### **NCA Policy on Dog Aggression \*Please police dogs carefully**

“Any dog that in the opinion of the Event Committee, attacks a person or a dog at an NCA working event, resulting in an injury, and is believed by that Event Committee to present a hazard to persons or other dogs, shall be disqualified. When the Event Committee pursuant to this section disqualifies the dog, a report shall be filed with The NCA Board. The disqualified dog may not again compete at any NCA working event, nor be on the grounds of an NCA working event unless and until, following application for reinstatement by the owner to the NCA Board, the owner receives official notification in writing from the NCA Board that the dog’s eligibility has been reinstated.”

### **Waiver of Rights -- Animals in Distress**

The Newfoundland Club of America, Inc, and the regional club hosting this event reserves the right to remove any animal in distress from a parked vehicle or crate, and all persons attending this dog event hereby waives any claim for damages against the Club for such removal. The NCA regards the health, safety and life of any dog on the event grounds to be paramount to other property or privacy rights. If the owner cannot be found in a timely manner, we will take whatever action is necessary for the safety of the dog, which may include breaking windows to enter a vehicle. Dogs found in an unsafe environment, distress, or in harm’s way (for example, left in a vehicle without proper ventilation) will be removed to safety. Exposing a dog to an unsafe environment, distress, or harm’s way is considered mistreatment and subject to appropriate discipline.
